

## Organising a Game of Handball

### Any Wall, Any Ball

The following is a modified game of GAA Handball and is suitable for children in Primary Schools

- All you need to play is a handball (or similar) and a wall
- Play in pairs or as doubles
- To start play the server must bounce the ball and strike it against the front wall using his/her hand
- The receiver must then return the ball to the front wall before the handball bounces twice
- As soon as any player strikes the handball, the handball must hit the front wall before it hits the ground
- After it hits the front wall, it must bounce inside the court boundaries
- The rally ends when a player fails to return the ball before two bounces
- Players get one point for winning a rally
- The player that wins the rally gets to serve the next rally
- The player that gets to 15 points first wins the game
